EXPERIENCE ENHANCED DURABILITY AND TRACTION WITH OUR PREMIUM TREAD DESIGNS

At Treadmaster Sdn. Bhd., we are revolutionising the tyre industry with our cutting-edge proprietary technology, designed to produce high-quality retread tyres that deliver exceptional value. Our commitment to innovation not only ensures superior performance and durability but also aligns with our deep sense of corporate responsibility.

We take pride in our eco-friendly approach. Treadmaster retreads boast a significantly lower carbon footprint compared to traditional tyres, making them a sustainable choice for our customers and the environment. As the world increasingly moves towards sustainability, we recognise the importance of reducing carbon emissions not only as a moral obligation but also as a sound financial strategy.

Treadmaster is powered by a team of skilled workers and management with extensive local and international experience in the tyre and rubber industry. Our dedication to excellence drives us to continuously create more value for our customers while upholding the highest standards in everything we do. Our tyres are SIRIM-approved, underscoring our unwavering commitment to quality, and they offer great value, making them an ideal choice for cost-conscious consumers.

By choosing Treadmaster, you are not only investing in top-tier tyre solutions but also contributing to a greener, more sustainable future.

WHY CHOOSE US ?

CONSISTENT QUALITY

Treadmaster ensures that you enjoy consistent and reliable performance with our tyres, crafted to the highest standards for unwavering quality. Drive confidently knowing that each retreaded tyre delivers dependable performance, ensuring safety and reliability for your vehicle.

COST EFFECTIVE

Our tyres are designed to be a cost-effective solution without compromising on quality. We offer high-performance tyres at a more affordable price compared to new tyres. With Treadma ster, you receive superior value and performance, making it a smart choice for budget-conscious consumers.

ENVIRONMENTAL ACCOUNTABILITY

Treadmaster tyres are environmentally friendly, designed with sustainability at the core of their production. Our retreaded tyres significantly reduce waste and lower carbon emissions compared to new tyre manufacturing. By extending the life of existing tyre casings, we minimise the environmental impact of tyre disposal and decrease the demand for raw materials. Choosing Treadmaster means opting for a greener solution that supports both high performance and environmental stewardship, helping to protect our planet while delivering reliable, durable tyres.
